

# FROZEN DRINK MACHINE

## OPERATING INSTRUCTIONS

1. Plug Machine into standard 110V electrical outlet.
2. Push the top switch to left, agitator will begin turning.
3. Fill the mix tank with the desired liquid. (3 gallon maximum.) Do not overfill the tank.  
\*Note that when ready, slush occupies more volume than the liquid.
4. If using a concentrate, follow the mixing instructions from Grand Rental Station, 2 gallons of water, ½ gallon of mix, 1- 5<sup>th</sup> of alcohol. Using any more alcohol will not allow mixture to freeze and become slushy. (If using natural products as a base, it is required that 5 to 7 oz. of sugar per gallon be added.) Allow at least 2 hours freeze time.
5. To begin freeze push both switches to the right toward the snowflake.
6. When finished with machine push bottom switch to left to begin the thaw process
7. Please do not disassemble the Frozen Drink Machine dispenser.
8. Make sure machine is empty and rinsed with warm water ( DO NOT DISASSEMBLE A SMALL AMOUNT OF WATER WILL REMAIN IN MACHINE) before returning to Grand Rental Station.
